

## CHV-MP200-AU

### VAV- ACTUATOR FOR TELLUS-VAV

VAV- control unit complete with air velocity sensor for pressure-independent VAV- applications.

- Air velocities: 0.5 ... 6 m/s
  - Control: DC 0/2 ... 10 V / MP-Bus
  - Feedback: Volume / Position DC 0/2 ... 10 V
  - Integration in bus systems
- DDC controller with MP interface  
– Fan Optimiser systems  
– Gateway for LON / Modbus / KNX /- . . .with integrated temperature sensor
- With additional connection option for active sensors and switches
  - Connection of the Service and PC-Tool
